# Standard Frames Collections

Greenmood's moss frames are available in 4 sizes and 4 different types of fillings which fit perfectly into any interior providing an harmonious natural touch. All the plants and mosses used are preserved, meaning they do not require sunlight, watering nor maintenance: they'll keep their form and appearance for many years!  
The frames are made of solid wood and you get to choose between white or black satin finish. Each product is provided with preinstalled hooks for both horizontal and vertical hanging.

In case those standard formats do not fit your needs, please contact us. Our team will analyse your project and provide an offer for a fully custom made frame, fulfilling all your wishes.

## Collections

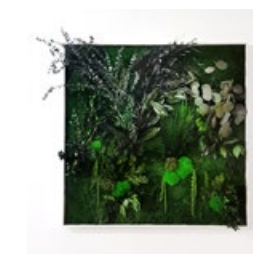

**Khloé**  
Reindeer Moss

13 7/8" x 45 1/4"

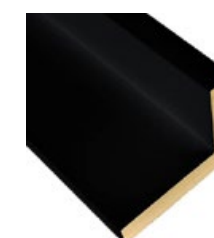

## Finishes

**Satin white**  
Solid wood

**Satin black**  
Solid wood

# Khloé

## Reindeer moss

The most versatile and durable moss of them all: the Khloé collection uses preserved Reindeer Moss (or Lichen).

This moss is available in a wide variety of colors and therefore will always be a match to complete your interior design with a natural touch.

# Kokoon Ball Moss

Bring a touch of charm and refinement into your environment with the Kokoon collection.

Moss frames made from Ball moss, a raw material naturally round and aesthetic whose elegant curves will give dynamics to any interior!

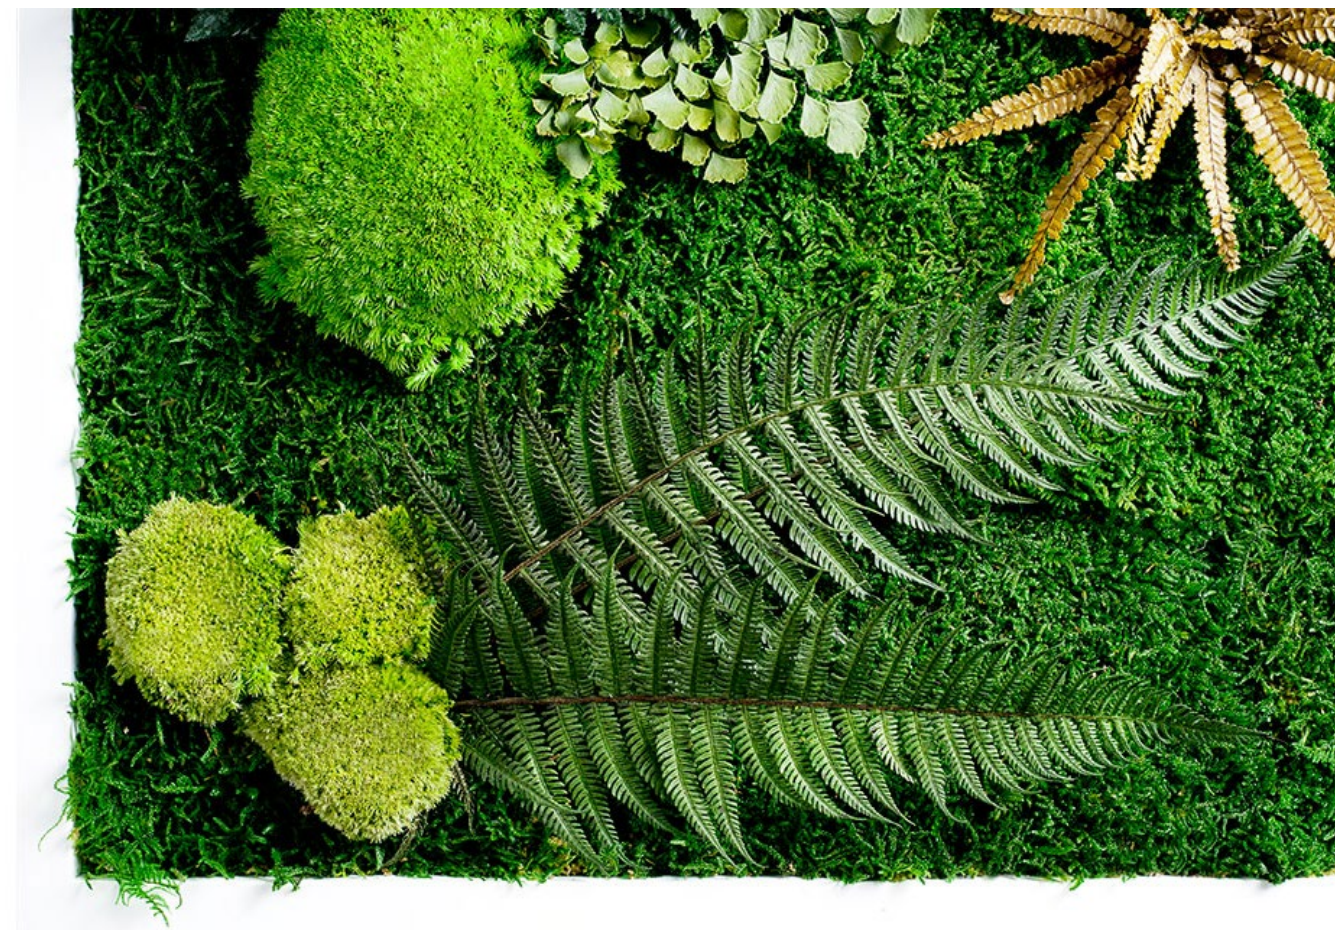

# Amazonia

## Preserved foliage

Each composition of the Amazonia collection is unique and entirely handmade in our workshop.

The plants used may vary (colors, species, sizes...) and those choices are guided by the customer's tastes and wishes.

# Island

## Flat Moss & Ball Moss

A subtle design combining preserved mosses with very different properties.

The deep green Flat moss place a layer of nature on which the thick Ball moss creates islands of a more vivid greenery.
